Poster Size and Layout

The dimensions of the poster boards are: 1200mm x 1800mm.

We recommend a poster size of A0, either portrait (841mm x 1189mm) or landscape (1189mm x 841mm).

You do not have to stick to this size. Any size is acceptable, as long as it fits within the dimensions of the poster boards and is not overlapping the next board.

If you use the whole of the poster board, delegates may find it hard to read content at the bottom of your poster.

Try to make your poster as easy to read as possible. For accessibility, please remember that certain colour combinations (e.g. red, blue, green) can be difficult to read. We recommend a font size of at least 28pt to ensure text is legible from a good distance.

If you want to provide handouts of your poster, we suggest you do this using A4 paper.
